DID YOU KNOW?

CHECK YOUR SMOKE ALARMS

The National Fire Protection Association (NFPA) recommends that smoke alarms be installed on every level of the home, inside every bedroom, and outside every sleeping area. Keep alarms away from drafts caused by fans or air ducts, as this could blow smoke away from the sensor. The NFPA also recommends that you test your alarms at least once a month, and replace the batteries every six months, or as soon as a low battery chirp is heard. For more information about smoke alarm safety, visit nfpa.org.

¿SABIAS QUE?

REVISE SUS DETECTORES DE HUMO

La Asociación Nacional de Protección contra Incendios (NFPA, por sus siglas en inglés) recomienda que se instalen detectores de humo en todos los niveles de la casa, dentro de cada dormitorio y fuera de cada área para dormir. Mantenga las alarmas alejadas de corrientes de aire provocadas por ventiladores o conductos de aire, ya que esto podría alejar el humo del sensor. La NFPA también recomienda que pruebe sus alarmas al menos una vez al mes y reemplace las baterías cada seis meses, o tan pronto como escuche un sonido de batería baja. Para obtener más información sobre la seguridad de las alarmas de humo, visite nfpa.org.
