Bridging Mathematics Over the Summer

Dear Parents(Guardians) of Students entering grades 5, 6,7 and 8,

As the school year comes to an end the faculty and administration thought it prudent to continue a summer math program for your child(ren). The students will work at a self-pace mode using the iReady program starting on July 5th and concluding on August 12th. ***Please note, students will not be able to access iReady after August 13, 2022.***

Students are familiar with the iReady program, as it was a tool implemented throughout this past school year. Students will continue on their educational paths that iReady has created based on each child's individual skill set/needs.

Each child will be required to complete a total of ***2 lessons weekly - with a success percentage of 75% or higher*** throughout the summer (12 lessons total). It is our suggestion that students complete sessions each week. However, any schedule that parents/guardians deem appropriate for their child/children would be acceptable as long as the requirements are met by the deadline.

Students will be graded based on the grade level they are entering into in September. The scoring guide is shown below.

We sincerely hope you and your family enjoy the summer break. Please stay well and be safe.

~Mrs. Halpin, Mrs. Valentino and Grade 7/8 Math teacher

Summer iReady Scoring Grade 5

1	2	3	4
0-8 lessons completed and passed. Some lessons are not a passing grade.	9 lessons completed. 8-9 lessons are passed.	12 or more lessons completed. 10-11 are passed.	12 or more lessons completed and passed.

Summer iReady Scoring Grades 6 - 8

★ Because grades 6-8 are graded on a percentage scale, the 12 lesson scores will be averaged to come up with one single grade for all of the lessons. This will count as the first grade of the first trimester.
