

Saint Project Instructions

Your Saint project will be a way for the whole class to learn about Saints that they might want to choose as their Confirmation Saint name. The Saint you research for this project is not necessarily the one you will choose for your Confirmation Saint, but it can be.

Step 1: You will draw a Saint name from a hat. You may trade with someone else or draw a new Saint if you don't like the one you chose. However, it's better to choose a Saint that you know very little about, since the goal of this is to learn about the multitude of Saints who are praying for us in Heaven.

Step 2: Complete the information sheet about your Saint. This will guide you in learning about who your Saint is. Feel free to watch a movie about your Saint, read a book, or browse the many Saint websites out there. Resources included on the back of this page.

DO NOT PLAGERIZE -you may use any materials that you like- book, pamphlet, website, magazine, movie, etc., however you must use your own words and not just copy and paste.

Please keep track of what sources you use and include the info about them at the bottom of your Saint board (or somewhere that isn't in the way).

Step 3: Make your Saint Board.

Directions for creating your Saint Board: DUE November 9th

- Use a trifold board - any size is fine
- Include your Saint's name at the top and an image of him/her

- As mentioned above, please include info about where you did your research somewhere on your Saint board.
- Make it creative to your taste- have fun with it!
- Bring your Saint to life in some way that would draw someone to read your board
- Include interesting things about your Saint- anything from your fact sheet or that you learned in researching

Step 4: Bring your Saint Board to our Saint night and share!
