

Summer Reading - Grade 5

Read Save Me A Seat and complete the attached brochure.

ASSIGNMENT :

1. Read the book.
2. Complete the online book report brochure. This brochure will be found on the St. Augustine website. Parts of the brochure include a cover page for recording the title, author, writing about the main characters(s), setting, problem/conflict, solution/resolution, summary, favorite quote, review (Did you like the book? Why or why not?), main events, and moral/lesson. Students should complete the lined version of the brochure.
3. The online book report will be due the first week of school.

Fifth Graders, keep your math skills sharp!

Our fourth graders have been busy all year learning new math skills. Mastery of all these skills is extremely important to develop a solid math foundation. Research shows that for skills to be permanently mastered, they must be continually practiced. To prevent the summertime “skill slump”, students are going to use the IXL math program. This site allows students to continue to practice their math skills with feedback and instructional guidelines.

As part of your child’s summer math practice, it is expected that they complete at least 20-30 minutes of IXL work per week over the course of the summer. Students should work until they achieve at least an 80% on each skill before moving on to the next one. Mrs. McGovern will be monitoring their usage over the summer and check their completion at the start of the school year.

Students can access the skills one of two ways. One way is to go under the “Recommendations” tab and click on the skill. The other way is to type the 3-digit skill in the search bar in IXL. If new or existing students need a username or password information, please contact Mrs. McGovern at patricia.mcGovern@staugustinesri.com

Students going INTO Grade 5 should focus on the following sections of FOURTH GRADE IXL math for review:
