PADRE PIO PRAYER GROUP

The February 2018 meeting of the Padre Pio Prayer Group of Kenosha will take place on **Saturday, Feb. 3**, at Our Lady of Mt. Carmel Church, 8:30 am Mass, 1st Saturday Devotions, Benediction, Fellowship.

The St Joseph Table

St Joseph, foster father of Jesus, is one of the most beloved saints among Italian-Americans. He is the patron of workers and the protector of the family. According to legend, there was a famine in Sicily many centuries ago. The villagers prayed to St. Joseph for his help and their prayers were answered. The famine ended. The villagers held a special feast of thanksgiving in commemoration of St Joseph. This celebration feast has become an annual March tradition.

The Mt Carmel Ladies Society invites you to take part in this tradition.

The Mt Carmel Ladies Society will host the annual St Joseph Table on Wednesday, March 21. Mass will begin at 5:30pm and a dinner will follow at 6:30pm. Tickets for this event will be \$12 and must be purchased in advance. Complete details for the St Joseph Table and ticket information will be available in the church bulletin next week.

Contraception leads to more abortions

Fr. Shenan Boquet, October 30, 2017 (LifeSite News) *While we need a variety of pro-life groups hacking away at the anti-life monster, it is enormously futile and indeed grossly shortsighted to overlook the chief source of baby-killing, which is contraception.* (Father Paul Marx, OSB)

I've written before about the link between contraception and abortion: that is, statistically contraception use actually *increases*, rather than decreases the abortion rate. For some reason, this claim is still met with shock and disbelief, even though top pro-abortion leaders have been admitting this truth – self-evident to anyone who examines the facts – since the 1960s. However, a pair of new studies from the **British Pregnancy Advisory Service (BPAS)**, a leading UK abortion provider, has given us a new, and even more horrific understanding of the infernal symbiosis that unites contraception and abortion.

The first study found that over *half* (51.2%) of the 60,000+ women who came to their facilities for an abortion in 2016 were using at least one form of contraception at the time they become pregnant. This first finding is not surprising. In fact, the only shocking thing is that it was “*only*” 51% – other recent BPAS studies have found that **as many as 66% of women seeking an abortion at their facilities were using contraception**. So much for “safe, cheap, and effective”!

However, the second study is the one that truly makes the stomach turn. Surprised by the fact that the number of women **seeking abortions after 20 weeks** (i.e. when the baby is essentially fully-formed, and might even be able to survive outside the womb) has **not** decreased over the past decade, BPAS launched a study to find out *why* women were waiting that long before aborting. The answer? You guessed it: contraception.

It turns out that when women are on contraception, they are significantly less likely to recognize the signs of pregnancy until extremely late. In the first place, BPAS observes, hormonal contraception disrupts a woman's menstrual cycle, removing one of the most obvious indicators of pregnancy. More importantly, however, because women are constantly told how “effective” contraception is, they simply assume it is “*impossible*” that they could be pregnant. Consequently, when they experience indicators that they're pregnant, they either overlook or misinterpret those signs.

Contraception and Murderous Despair: The BPAS report says that when the women on contraception found out they were pregnant they were “shocked” and “devastated.” Think about that for a moment! I understand that pregnancy can be a vulnerable time, even for women who were trying to become pregnant. And yet, how horrible that the news of the existence of a new human being – objectively an extraordinary and beautiful miracle – should be greeted not with joy by the mother, but despair! And not just *any* kind of despair: a despair that is so all-consuming, so dark, so bleak, that the response is to try to *destroy* the child. *This* is what the lie of contraception has done to us: it has robbed us of a precious part of our humanity. By creating the false expectation of sexual pleasure free from the natural consequences of sexual intercourse, it has primed mothers and fathers to greet the existence of their own children not with joy, but dark, murderous despair!

The BPAS study includes some heart-rending details. Speaking of one woman, named “Catriona,” who was seeking a late abortion, BPAS states: “She is upset *as she can now feel the pregnancy* but feels abortion is the best for her.” “Catriona” is “upset” because she can “feel the pregnancy.” “The pregnancy”! What she is feeling are the little fingers and toes of *her child* brushing against the sides of her womb. She is feeling her fully-formed, growing, healthy child stretching out its body, exercising its new-found strength, filling in the shrinking space in her womb with fleshy limbs, pressing its precious head up against her ribs, kicking his legs. “*For you formed my inward parts; you knitted me together in my mother's womb*” (Psalm 139:13).

Contraceptive Failure: Far More Common than You Think: BPAS points out that “each year **9 in every 100 women using the contraceptive pill and 6 in every 100 using the contraceptive injection, will become pregnant**.” I want you to stop and think about that statistic very carefully. Because it is a *lot* worse than most people realize at first. Men and women are *constantly* told, from the time they're in elementary school, that the best (and even *only*) way to avoid an unplanned pregnancy is to use contraception. **In reality, as many as 9% of sexually active women on the pill will become pregnant...every year!** And when that unplanned pregnancy happens? What will she do? That's where BPAS's diabolical logic enters in. “The answer to unsafe abortion is not contraception, it is safe abortion,” says BPAS Chief Executive Ann Furedi in the recent study.

The Great Contraceptive Lie: Decades ago Human Life International Founder Father Paul Marx identified this lie, and he spent his life trying to warn the world of its deadly consequences. In his book, *The Death Peddlers*, he warned: “The foolproof contraceptive *does not exist*, and sociological studies have shown, almost without exception, that intensive contraceptive programs, by emphasizing the prevention of unwanted pregnancies, also reinforce an intention not to bear an unwanted child under any circumstances; that is, there is a greater likelihood that women experiencing contraceptive failures will resort to abortion.” Elsewhere he wrote, even more poignantly: “... the more you sow contraception, the more you reap sexual sins, family and social disorders, venereal diseases, and deadly AIDS — and the more you must make available ‘abortion services’ to take care of the ‘contraceptive failures’.”

The truth is, we **will never end the violence of abortion until we eradicate the underlying cause: i.e. the contraceptive mentality, which is the foundation for the entire sexual revolution**. As Father Marx repeatedly said, no matter how good the intentions and efforts to stop abortion are, unless, we address the systemic root cause, contraception and its selfish mentality, everything is an exercise in futility.

Phase II of our Sanctuary Project (Painting) to Go Forward!

After consulting with our parish finance and pastoral councils, we have decided to go forward with Phase II of our sanctuary redecoration, which includes the painting of the two large murals on the side walls and the ten Carmelite Saints in the upper portion of the sanctuary. We are close to our goal of \$140,000 needed for the painting.

We still ask for individuals to make contributions to the project. If things go as planned, we hope to have the sanctuary painted by the end of May, 2018!
