I ~~have~~ ~~had~~ ~~will have~~, i have experienced lots of benefits from the N.D.C.O project who have sponsored me throughout my school life. First of all, let me take this chance to thank God and also to thank you.

First and foremost the N.D.C.O project which provided sponsorship for me has enabled me to carry on with my education smoothly without any disturbance in terms of School fees.

Apart from providing school fees, it has also provided a conducive and encouraging environment and has taught me good virtues.

Also the project has enable me to focus on my studies, for Opportunity only strikes once and once you let it go then that's the end of you.

The Project also enabled me to learn on some good qualities such as being responsible and also have good morals.

And since i joined the N.D.C.O i have felt a great change in my life and i have experienced and taught on how to face certain challenges in life.

As at now, am fairing well and for the love you have provided to me has enabled me to be in a state where i am for that i really offer great thanks.

And the above all i have mentioned is what i have experienced since i joined the N.D.C.O project since 2019 till now 03/2023.

We used to learn in a public school but it took us to a boarding school. Through NDCO, I am prayerful and I know how to relate with others well. Through it I have known how to follow Christ by doing good deeds.

Through NDCO, I have changed both academically and spiritually.

I have tried my best not to abuse the opportunity by working hard in my studies.
