PROJECT UPDATE

Final Construction Design, Contract New Animation in the Narthex

We have completed the final construction designs and contract, which allows us to now begin to visualize our new home with even more detail.

In the narthex you will find a digital animation of the plans for our new church. It is a wonderful display of our final design and a great way for us all to see the future home of our wonderful parish. Please take a look for yourself after Mass.

As we migrate from groundbreaking to active construction, we ask you to please continue to pray for the construction workers, contractors, and everyone else involved in the building of our new church. It is through your prayers that we give them strength and favorable conditions to help keep us on schedule.

Our ongoing success speaks to the power of your prayers. Let's keep it going!

NEXT STEP: NEW CONSTRUCTION MILESTONE MAP

Now that we have broken ground, we have begun development of a new milestone map that will help keep everyone up to date as we progress through each phase of the construction - all the way to our first Mass. Watch for the milestone map to be replaced soon.
