Treasurer Report - Lisa Schwarte

Lisa reported a lot of cash is coming in and out with Greater Giving. It's mostly being used for payments. If it's outside of a Home and School event, then we charge for use of Greater Giving. We finished with \$12,394 total collected for the PPE Drive. We're a little short of our goal, but it was a successful drive. No administrative fee on that initiative. We raised \$1600 for the auction with the out-of-uniform day. This is a record! The use of Venmo helped. Auction activity raffle is underway. School supply check for \$1100, homeroom parent funds have been collected. Lisa is ready to send distributions to the homeroom parents when we get the volunteer list from Lurleen. The check goes to one homeroom parent. The spring grant money that was set aside, needed to use some for covid planning – almost \$12,000 for items like touchless plumbing. There are not a lot of needs from the school right now. We currently have \$32,000, which is a little higher than we like to keep, but we haven't received requests from the school yet. It will be available if a need comes up. Lisa asked if we will we cover the difference in the PPE drive to meet \$15,000? Might have it covered. Fall grants for \$5000 – available for school or for repurposing. The Greater Giving annual fee of \$1600 is also coming up.
