

# FACEBOOK LIVE

## A STEP BY STEP WALKTHROUGH

### Adjust your smartphone settings

- Turn on **do not disturb**
- Turn off **orientation lock**
- Enable your phone's **silent mode**
- Turn your phone's **volume all the way down**

### Livestream using Facebook Live

- Open the **Facebook app** (while holding the phone upright in portrait mode)
- Navigate to your official **Church Facebook page** (you must be an admin)
- Tap the **'Live' button**
- Now rotate your phone sideways to **landscape orientation** and mount your phone  
*(due to a glitch, you must not use landscape mode until after opening Facebook Live)*
- To disable the mirrored image, you'll need to access more settings. Tap the **magic wand**.
- Now tap the **tools icon** (looks like a screwdriver and a wrench)
- Tap the **horizontal image flip** option (the leftmost option)
- Tap the **X** to return to the main Facebook Live screen
- Tap the text area that says **"Tap to add a description..."** and add a title to your livestream
- Double check your settings, and when you're ready, tap the **blue button to go live**  
*(after a few seconds, you'll see the red 'Live' indicator – and you are live!)*

### Finish the livestream

- Tap the **'Finish' button** to end your livestream
- Select both the **'Post your video to your timeline'** and **'Upload in HD'** options
- Tap the **'Share' button** to post the video to your Church Facebook page timeline
