## SAINT OF THE WEEK!

### Saint John Bosco

John Bosco was a cheerful farm boy who had a dream at age nine, where a mysterious man and lady told him to lead others with "goodness and kindness" rather than anger. To attract children on the street, he learned magic tricks and juggling, always ending his shows by leading his friends in prayer.

As a priest, he opened a home and school for orphans with the help of his mother, "Mamma Margherita," where he taught children how to read, write, and find good jobs. He believed that to truly teach children, you must love them first and understand their hearts. He showed us that being a saint can be full of joy, music, and laughter.
