Saturday, January 24 at 6:00pm

Family Code Dinner: is a 60-minute experience designed for parents and students to attend together. Families share a meal while being guided through meaningful, structured conversation prompts that help them talk about values and expectations in a positive, non-lecture setting. Every family will have an opportunity to write their own “Family code” and some of the students may share with the community.

Smart Families will explore how families can build healthier digital habits—not through strict rules or perfect systems, but through virtues practiced together over time. Drawing from ideas in Atomic Habits, The Family Opt-Out, and Raised by Grace, this talk will address real family situations, the impact of social media on daily life, and how small, virtue-based choices can shape long-term habits.

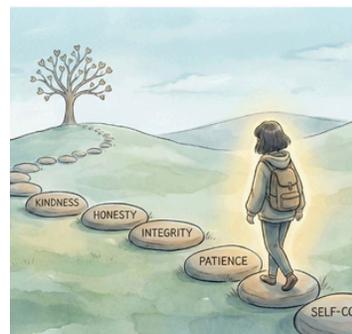

Featuring Smart Families team member Paola Benítez in conversation with her daughter, this talk is especially relevant for families thinking about New Year resolutions and looking for realistic, grace-filled ways to move forward together.

January 21st, with sessions at 9 am and 7 pm. For more information and to RSVP, visit:
