AMLD Deed Restrictions, ACC, and Policy Information

Deed Restrictions

Each home within Anderson Mill Limited District's boundaries are associated with a village deed restriction. For deed restriction information please visit the AMLD website, select "Limited District" and scroll down to "Deed Restrictions and Violation Reporting." On the web page you will find a map of the 31 villages throughout Anderson Mill Limited District, electronic files for each village's deed restrictions, FAQ's, and a reporting form.

A letter notifying home owners of any deed violations will be sent out, giving the owner 30 days to correct or resolve the violation. Legal action will be pursued if the violation has not been remedied. Residents can file complaints via the Violation Report Form found at the AMLD website. For more information or if you have questions, please visit www.amld.org or call the main office at 512-258-4104.

Anderson Mill Limited District has many villages, each with deed restrictions in place. The Austin City Council has recently passed phase one of HOME that would change city zoning, which does not change the deed restrictions in place for Anderson Mill Limited District villages. The deed restrictions for villages within AMLD state each lot is for "a single family residence". Some of the villages do allow for duplexes on specific lots that are clearly defined within the deed restrictions for that specific village.

Architectural Control Committee & Review Process

The Architectural Control Committee (ACC) is charged with the responsibility of reviewing and approving or denying plans and specifications for the construction and/or remodeling of property within the District as set out by the deed restrictions for the particular village in question. Each home in Anderson Mill Limited District is a part of an assigned village with unique deed restrictions for each village. Deed Restrictions can be found on the AMLD website. To get on the agenda, residents need to submit an Architectural Review Form to the main office. The form can be found on the AMLD website under the Architectural Control Committee tab. The completed forms and plans can be returned to the AMLD main office located at 11500 El Salido Parkway, Austin, TX 78750.

The AM Neighborhood Association (AMNA) is an organization just for the residents of Anderson Mill. AMNA is a nonprofit that serves as a collective voice for residents. AMNA's primary function is to bring neighbors together & foster a sense of unity & cooperation to improve our neighborhood's quality of life. The association serves as a liaison between residents & local authorities, advocating for shared interests, concerns, & needs. AMNA publishes a free monthly newsletter for residents packed with neighborhood news, events, & useful information.

In the last two years, AMNA has produced two garden events with Master Gardeners, which spawned a Garden Club that now meets once a month. We brought neighbors together for a Dinner in the Park social & National Night Out parties. AMNA organized the first-ever Neighborhood Yard Sale last April and most recently submitted an Urban Forest grant application to the City of Austin to start reforesting our parks and trails. We are waiting to hear if our grant application is approved so AMNA & our partner, the AM Limited District, can plant 35 trees. While waiting, AMNA has raised almost \$3,000 through our Adopt-A-Tree program. On November 3rd volunteers planted three trees in Harper Park as hands-on practice at the Tree Planting and Tree Care Clinic.

Based on community feedback, AMNA plans to do even more over the next year. Send your suggestion on how we can make our neighborhood a better place to live by taking our survey at: bit.ly/420f7ye

Tennis Court Lights

Use your key to set the timer for the court lights to "ON". Court lights will stay on for 60 minutes. The bell will sound when there are 10 minutes remaining on the timer. Lights will shut off if the timer is not immediately reset with the court key. Once the lights have shut off, a 20 minute cool down and relighting process will start. Contact the AMLD Main Office if there are any outages.
