

WELCOME to FIRST GRADE!

Dear First Grade Families,

Welcome to First Grade! I am so excited to meet your child and begin a wonderful school year together.

To help prepare your child for first grade, students will receive a Summer Reading and Math Packet to complete over the summer. Please read one of the books listed below and fill out the book report.

This packet is designed to review important kindergarten skills and help students feel ready and confident for the start of first grade.

For reading, please read with your child and have them try to read to you as well. You can practice letter sounds, sight words, rhyming, blending sounds, and talking about the story. Ask questions such as, 'Who are the characters?' 'Where does the story take place?' and 'What happened in the beginning, middle, and end?'

Please have your child work on the packet little by little throughout the summer rather than waiting until the end. This will help make the transition into first grade smoother.

I look forward to meeting your child and watching them grow in first grade! I hope you all have a safe, happy, and restful summer!

Sincerely,
Ms. DeMuro
1st Grade Teacher

BACK TO SCHOOL
