

DIOCESE OF LONDON
APPLICATION FOR CAPITAL EXPENDITURE
(please print clearly)

Almost all capital projects undertaken at our parishes require the services of an architect and/or engineer because our buildings are classified as "Assembly Occupancy" buildings under section 2.3 of the Ontario Building Code.

Capital projects in excess of \$25,000 must be pre-approved by the Financial Administrator of the Diocese.

Projects in excess of \$25,000 are not to be split into pieces, nor is a contractor to issue multiple smaller invoices to avoid needing approval. This practice is not only in contradiction of the policy but is also unethical.

The Parish of _____ City _____ No. _____

Requests permission to spend the sum of \$ _____

For the following purpose: _____

Signature of Pastor

Signature of Finance Committee Chair

Signature of Business Manager
