STATE EXAMS

At the end of April, our students in grades 3–8 will participate in the NYS Exams. While our daily instruction using the NYS curriculum prepares students to meet grade-level standards and perform well, practice and review are also essential components of success.

Each day, students are given additional time beyond regular classroom instruction to strengthen the skills needed for these assessments. In the final weeks leading up to the exams, students will also engage in targeted test preparation, including learning and practicing test-taking strategies. As part of this preparation, you may notice your child bringing home additional practice work, such as sections of previous exams. We ask for your support at home by providing a quiet workspace, encouraging your child to stay focused and complete their work, and allowing them to work independently. This independence helps teachers accurately assess student needs and provide appropriate support.

Often, students understand the material but may lose points due to rushing, not carefully reading passages or questions, or not providing enough detail in written responses. Practicing these skills helps students perform their best—not only on the NYS Exams, but on all assessments.

❤️ Sacrifice

Sacrifice means willingly offering something up to God or giving to others through charity and kindness. It is also giving up something of value to show love, loyalty, or devotion.

📖 *“Like living stones, let yourselves be built into a spiritual house to be a holy priesthood to offer spiritual sacrifices acceptable to God through Jesus Christ.”*
