

Michalina Styka

Thank you to All Health Care
Workers

Thank you, Health Care Workers! You have helped so many people during Covid-19. People are very grateful and supportive of all of you! You have stayed and helped the sick during these hard times, instead of staying home full time with your family. Which is very selfless and amazing. You are Courageous and strong people!

Me, my family, and my friends are very grateful for all of you! It might be hard and very challenging, but you still continue to work through it. I hope you all are doing alright and are very healthy.

Thank you for all of the work you have done for the world. We will always appreciate all of you! Stay safe!
