**Catholic Charities Disaster Response Information**

Disaster Case Management is a time-limited process by which a skilled and trained CCANO staff (Disaster Case Manager) collaborates with a disaster-affected individual or family (Client) to develop a plan to help them recover after a disaster. This goes beyond providing relief, providing a service or resource, or meeting any urgent needs. Case managers serve as the client’s primary point of contact to access and coordinate services on their behalf. Clients play a critical role, as this is a collaboration, and they will be required to be active in their own recovery.
