Technology Policy for Work with Young People and Vulnerable Adults

February 2022
Introduction

The use of technology is valued in our ministry in the Archdiocese of New Orleans. Adherence to the Technology Policy for Work with Young People and Vulnerable Adults is necessary as we strive to model Gospel values and educate our community through use of technology. We are called to treat all human beings with dignity and respect both in person and through the use of electronic communication.

Adherence to the Technology Policy rests with the individual. Church personnel shall conduct themselves in a manner consistent with the moral teachings and norms of the Catholic Church. Any violation of this Technology Policy will require corrective action depending on the specific circumstance. This may include, but is not limited to, a written report and termination of employment or volunteer work.

Technology is ever changing. This policy does not only apply to current modes of technology, but also to those that may arise in the future.
