A Note from the Principal

Dear St. Augustine Families,

Please be reminded that Easter Break will begin today, April 15th, with a scheduled dismissal at 12:30 PM. We encourage all families to take this opportunity to focus on the final days of Jesus' life on earth, culminating in his crucifixion and resurrection, enjoy quality time together, and recharge during this Holy season.

Classes will resume on April 28, 2025. We look forward to welcoming our students back refreshed and ready for the remainder of the academic year.

Wishing you all a peaceful and joyous Easter Break. - Dr. Logan

NWEA MAP Growth Assessment - Spring Testing

Leading up to this important assessment, our teachers have been diligently reviewing the data from our January MAP results. Based on this analysis, they have thoughtfully created differentiated Easter packets specifically designed to target skills that we have noticed your child would benefit from reviewing before they take the spring MAP test.

These individualized packets will be sent home with your child before the Easter break. We kindly request your assistance in encouraging and supporting your child to complete their skills packet during the break. This focused review will help reinforce key concepts and build confidence before the upcoming testing session.

In addition to the targeted practice in the Easter packets, we also encourage you to support your child with daily practice of other skills in IXL. Consistent engagement with IXL can further strengthen their understanding and proficiency across various subject areas. Your partnership in this at-home review is invaluable in helping your child achieve their best on the MAP assessment.

We believe that this combined approach of targeted review through the Easter packets and ongoing practice with IXL will provide our students with a strong foundation as they approach the spring MAP testing.
