Each Student Matters, Every Moment Counts, Christ in the Center

Art Supplies—Time to look in the closet!

We have two projects we are working on here at school.

- 1) Paper mache. I like using yellow page books for the paper on these projects. First the students use the white pages and the next layer are the yellow pages. This way they can tell more readily what needs to be covered. If you have old yellow page books (the thicker the better), please bring them in. I only have one book remaining!
- 2) Yarn! We have created crocheting monsters! Very talented monsters—that are readily going through my supply of yarn. If you have balls of yarn that you would like to get rid of that are taking up space in your crafting area, we can use them. Again, don't feel the need to go out and buy new—that isn't necessary. Even if it looks like a tangled mess—we have a few students that seem to find the process of balling yarn soothing. I am just getting down on a few colors and it is nice to have variety. Thank you sooo very much for your consideration.
