'Live justly, love tenderly, and walk humbly with your God.'  
Micah 6:8

Our Donuts with Grown-ups event was a wonderful way to start the day. If you missed this one, we will have another one in April.

The first graders have been working on some "creepy" science over the past few weeks. We have been learning about different types of spiders. The students ended the unit by making their own "walking" spiders. They have also wrapped up their unit on how animals protect themselves with camouflage. The students had to create their own moths to blend into our classroom environment. The children learned how to use test marks to identify which colors were the best for camouflaging their moth. They are so proud of all of the work and learning that they put into their animal disguises!

I recently had the opportunity to go on a family hunting trip to Montana. The sixth grade class, along with Mrs Niggemann and Mrs. Liske, gave me a 'good luck' card before I left. Here I am holding their card with the mountains of northwest Montana in the background. I am very grateful for the kindness showed to me by the students and staff.

Also, I did NOT sit on any cactus plants this year!
