Sept 15- Oct 15  
Hispanic Heritage  
Month

Each day we visit a different Spanish-speaking country to explore the geography, history and culture of the Hispanic world in celebration of the rich contributions of the Hispanic community to our culture.

## Reminder

Homework is posted in the daily lesson plans in the Spanish Google Classroom AND on the collaborative homework post in Google Classroom.

## October

### OUR LEARNING focus...

All classes began with basic greetings and pronunciation. HHM has exposed us to authentic language through songs and videos.

**Spanish 5&6** can spell their names using the Spanish alphabet and are learning the concept of gender and number of nouns. We will soon explore adjective agreement. This will give us a start in building sentences.

**Spanish 7&8** started with formal and familiar greetings, followed by the calendar. Now we are learning numbers as an entrance to our unit on Personal Identification.

All students can bless themselves in Spanish. The 8th grade is learning to say Grace before meals!
