Notes From the Teacher

It was so great to see all of you at Back to School Night last. I always feel like I throw a lot of information at you quickly, so please reach out if you have any questions. We had a busy week. We learned about the water cycle and how our water keeps moving around again and again. We learned a song and did some experiments to see the water cycle in action. We worked on numbers 4, 5, and 6, with the main focus on correct formation of those numbers and ways to make them. We worked on short a in Phonics and learned the heart words I and can. They are bringing home a reader they can read to you for practice on these phonics skills.

We have our math MAPS test on Thursday morning at 8:10. Please be sure they get a good night's rest and a healthy breakfast that morning so they show us all they know. We are testing right away that morning, so having them at school on time makes for a smooth start to their testing session. Thank you!

Attached to the email you will find the ASQ Letter with the links embedded and the list of supplies you will need to administer the ASQ 3 to your child. Please let me know if you have any questions. I am happy to help in any way I can.

Please send in pictures of your family with your child next week for our first "Friend Fact" topic.

Blessings! - Mrs. Wagner
