June 21, 2021

Dear Families,

The A.H.E.R.A asbestos inspection of our school building was performed by the Environmental Division of the Archdiocese Building Commission in the spring of 2021, and found no change in the asbestos condition, no awareness of physical damage or delamination. We continue to make inspections every six months to insure a safe environment for students, employees and visitors.

Sincerely,

A handwritten signature in cursive script that reads "Thomas Hamilton".

Thomas Hamilton  
Principal
