Groups and Services in our Parish Community

PARISH HEALTH MINISTRY

“Blessed be the God and Father of our Lord Jesus Christ, the Father of mercies and the God of all consolation, who **consoles** us in all our **affliction**, so that we may be able to console those who are in any affliction with the consolation with which we ourselves are consoled by God.” — **2 Corinthians 1:3-4**

The dark days of winter descend on us as we near the year’s shortest daylight hours. Despite the holidays, birth of Jesus, and celebrations with reason for joy and hope, many experience **Seasonal Affective Disorder**, a depressive disorder commonly known as **SAD**.

This can also occur in summer months but is most common in fall and winter. **SAD** differs from other forms of depression as it begins and ends at about the same time each year.

Decreased sunlight is thought to cause a part of the brain to stop working properly.

- **SAD** affects an estimated 10 million Americans
- **SAD** affects four times more women than men
- **SAD** is most severe December through February
- 60-80 percent of **SAD** cases are treatable
- Average age is 18 -30 , but **SAD** can affect anyone.

Effective treatments for **SAD** are available. Information about these, plus symptoms, helpful hints, and coping strategies are on the Health Bulletin Board in the dining hall.

SEEK medical help for treatment, especially if you are feeling HOPELESS or SUICIDAL!
