

# WINTER IS JUST AROUND THE CORNER!

Winter is on the way, and with it comes the icy, snowy conditions that can make life a little tricky. But fear not, we've got just the thing to help you prepare!

The parish has a surplus of 100 bags of Dead Sea Chloride Pellets, each weighing 50 pounds. These aren't just ordinary salt pellets, they're extracted from the Dead Sea by natural evaporation of seawater and a simple refinement process. Not only are they effective in managing ice and snow, but they are also safe for people, pets, and the environment due to their low toxicity.

They're up for grabs at only \$25 per bag. A great deal, right? But hurry, they won't last long!

## ***Ready to reserve your bag(s)?***

Visit [volunteersignup.org/EMHRB](https://volunteersignup.org/EMHRB).

You can pay when you pick up your order (we accept cash and checks).

**PICK-UP DAY**  
**SATURDAY, NOV 18TH**  
**11AM - 1PM**  
**IN THE PARKING LOT**
