

November is full of Thankful and thoughtful art projects.

This month the Kindergarten students will create fall art projects that incorporate attention to details and fine motor skills.

First graders continue to experiment with textures and colors, we will be making a Nativity scene for the holidays.

Second, third, fourth, and fifth graders are working on attention to detail, advanced scissor skills, and structure.

Middle school is working on drawing and painting on non traditional items.

We will be creating projects that celebrate Jesus' birth and celebrate all the blessings we enjoy here in Pennsylvania.
