

# ONE YEAR » TO » ONE PARISH

## JULY 1, 2022—JULY 1, 2023

*Under the above banner, each week you will find information regarding our process of merging our two parishes into one canonical entity, a brand new parish. We are some of the very last parishes in the Diocese of Pittsburgh to undertake this process. On this page each week you will learn details of how this will take place and some of its implications. Please read it each week.*

When we become one parish on July 1, 2023, all the buildings of both current parishes will be available for parish activities. Some way of accurately identifying them was needed. It seems best to begin with a general location identification. We will gradually begin to identify three locations: **The Mars Campus, The Glade Mills Campus, and The Cranberry Campus.** Various activities will be listed by these three identifiers. We realize that many may not be familiar with all the buildings on all the campuses. Therefore, today's bulletin and subsequent bulletins will describe those buildings, campus by campus. Below, is the Cranberry Campus.

### THE CRANBERY CAMPUS

#### Parish Administrative and Education Center (School Building)

The first building to be built by Saint Kilian Parish in Cranberry Township, it was dedicated on December 8, 2010. It contains a chapel and gymnasium, a cafeteria and kitchen, a Pre-School classroom, 24 home rooms (K-8) as well as classrooms for special subjects, a library and meeting rooms as well as offices for the Parish and Catholic school.

#### Field Center and Maintenance Building

Adjacent to the soccer field there is a substantial building containing lavatories, a concessions area (with water and refrigeration) as well as storage for sports equipment. On the lower level, there is storage for maintenance equipment and vehicles.

#### Church

The 1,000-seat church was dedicated on September 25, 2016. In addition to the worship space the lower level contains two large meeting rooms, two offices, a substantial hall, and a full kitchen.

#### Rectory

The rectory dates from the early 1960's. It as well as adjacent land was purchased as plans for the first building began. The rectory was completely renovated by volunteer labor. It contains three bedrooms and three baths as well as a two car integral garage.
