## GROWING OUR TALENTS

Humanity has witnessed many tragic events, eras, and times of great pain and suffering throughout history. Today, because we have the ability to almost instantly witness events across the globe, it seems that we see and hear more of the horror and evil that are the byproducts of war. The mid-east war, the Ukraine conflict and Gaza and the surrounding territory are some places where war rages. We see suffering and loss of innocent human life, and we cry out for peace and help to save lives and to end the brutal terror put upon those caught in the carnage. We mourn all the loss of life brought on by hatred and we wonder how we can help stop it. The earth seems to be engulfed in fire caused by human hatred everywhere we turn! We turn to our God for help and wonder why “everything appears to be coming apart at the seams.”

In today’s scripture, Jesus, through the lens of St. Matthew, offers us some tough love guidance. Many theologians believe today’s passage is meant to help prepare us for the “end of times” as we hope and anticipate Jesus will soon return. This parable is a foreshadowing of Jesus’ coming to us. We must listen to “the master” in this parable, as he equates success in our spiritual lives by how much we use our talents to do God’s work!

This is the heart of today’s message: Whatever talents we have, we should use them to help and service others. Doing good as God asks, means we do not act out of fear, hide our talents because we do not think we have much to offer, or we are afraid we will lose what we have!

Jesus wants us to be an interactive community with all our neighbors. We must help those who suffer. We must use our talents to their fullest. We should focus on our brothers and sisters caught in difficult and bad circumstances. They need not only our prayers, but also our actions to help better their lives.

May we not shrink from helping those who need us. We must do our best to love and help all we can, and use our “God given talents” to support and service others!

As we gather round our Thanksgiving tables this week, let us tell the Lord and our loved ones how grateful we are for His blessings and the gifts that we have been given. Let us do our best to love and serve others, especially those who are less fortunate and the suffering. Let us all begin by offering prayers for our brothers and sisters and remember that “when we are gathered in His name, He is with us!”

Happy Thanksgiving, God bless us all. Deacon Fran

### NOVEMBER 18 - WORLD DAY FOR THE PREVENTION OF AND HEALING FROM CHILD SEXUAL EXPLOITATION, ABUSE AND VIOLENCE

The Archdiocese of Boston joins the United Nations in recognizing November 18 as the World Day for the Prevention of and Healing from Child Sexual Exploitation, Abuse, and Violence. Child abuse is a far too frequent occurrence in our society. The numbers are staggering, and the lifelong impact can be profound. We must do all that is possible to intervene - preventing abuse, interrupting and reporting it when it is happening, and helping heal those who have been abused. As a diocese, we do this by screening and training our clergy, volunteers, and employees, and by training our youth how to recognize and respond to risks and get help when something is wrong. We provide targeted pastoral care for those who were abused by clergy or other representatives within our church to assist them with healing. We ask everyone to join these efforts through prayer, kind and compassionate outreach to those who are impacted by abuse, and full participation in our abuse prevention efforts. To learn more about how you can help, please contact the Office of Pastoral Support and Child Protection at 617-746-5995 or go to [www.BostonCatholic.org](http://www.BostonCatholic.org)

## Special Collection for the Retired Sisters of the Archdiocese of Boston

### A token of thanks for a lifetime of service

Religious sisters have been influential in so many areas within our Church and here in Greater Boston. Certainly, we know of their impact in Catholic education and health care services, but we have also seen them working and advocating at the forefront of challenging societal issues such as homelessness, immigration, environmental responsibility, and social justice. Together, they share a beautiful commitment to prayer, community, and ministry - and a humble obedience to the Holy Spirit.

This week's collection helps provide for the needs of our nearly 1,500 Retired Sisters who have dedicated their lives to serving the Greater Boston area, providing for their needs, including health care and retirement expenses not covered by social security benefits. Every gift impacts the lives of these wonderful women and allows them to journey forward knowing they are blessed with the support and care that they need.

This weekend, please let your hearts be guided to generously support them for their many years of service to Christ, to our communities, and to the greater Church.

If you would like to send your donation directly, you can send a check made payable to the Archdiocese of Boston to Sister Germana Santos, FSP, Delegate for Religious, 66 Brooks Drive, Braintree, MA 02184.

## FAITH FACTS

### THE APOSTLES: THOMAS

An ancient tradition of the Church tells us that, after the Ascension of Jesus, the Apostle Thomas evangelized Parthia (which included modern Iraq and Iran) and India.

The ancient tradition says that Saint Thomas converted an Indian king called Gundaphor. In more recent times, it has been discovered that there was indeed a king named Guduphara (or, "Gondophares") in India at that time.

The tradition says that Saint Thomas was eventually martyred by being pierced with a lance.

# THE SOLUTION FOR YOUR CHRONIC PAIN!

"Ever since I was a teen, I've had debilitating migraines."

"My knee injury is why I gave up sports."

"I've had arthritis for as long as I can remember."

"I get a shooting pain from my lower back that prevents me from walking."

*What do all of these people have in common?*

They suffer from **chronic pain**. In the US, it's estimated that more than 20% of adults experience chronic pain – that's roughly 50 million people! Although more common among older adults, young individuals fall victim to this as well.

Chronic pain is any kind of significant pain that's stuck around for weeks, months, or even years after the initial injury or condition that caused it has healed. For patient Rebecca C. of Marshfield, age 38, after being injured in a car accident, this meant the inability to walk for nearly 2 years! "My back and hip pain were so debilitating that I found myself bedridden for the majority of my days until I finally tried acupuncture. With each treatment, I feel like I gain at least a sliver of my life back," she remarks.

At **New England Wellness Solutions**, Acupuncturists, and brothers, Bryan and Jimmy Duong believe they hold a large piece to the chronic pain puzzle. "Having helped a multitude of chronic ailments, we have seen time and time again how healing acupuncture can be for people. We pride ourselves in working with our patients to come up with the best solution specifically for them. To supplement our sessions, we discuss appropriate lifestyle tips and tricks to benefit them beyond our clinic's walls," Bryan explains.

Managing chronic pain can be challenging. **Treatment often requires a personalized multidisciplinary approach.** This may include lifestyle modifications, physical therapy, psychological counseling, medications or supplements. Since complete relief may not always be possible for every individual, the ultimate goal is to improve overall quality of life and functionality.

"I may still be unable to dance, but at least now I am able to comfortably stand on two feet! Before I started here, I never anticipated being able to walk again as acupuncture was honestly my last resort in a long line of attempted treatments, but look at me now!" Rebecca shares.

**Almost all of our patients come to us with stories similar to Rebecca's. They've been everywhere else. They've been told there's no hope. They've heard, "It comes with aging," shares Lynne, a Patient Care Liaison at NEWS. "It just breaks my heart but I know how much we can help people like Rebecca so I'm always so happy when they come through our door."**

Western medicine is often quick to distribute medication as a bandaid or look toward more traditional, costly therapies, like PT, until they end up deeming the chronic pain "untreatable," as they did for Rebecca. This is the point that most people reach right before visiting us, which is why our patients, along with our Practitioners Bryan and Jimmy, embrace NEWS as **"the last resort with the best results."**

Oftentimes, chronic pain is caused (and exacerbated) by underlying medical conditions, injuries or surgeries, nerve damage, musculoskeletal issues, autoimmune diseases, and psychological factors. Because of this, our patients are generally seeking a hail mary attempt at pain management without the surplus of pills – or as we like to say, they're **"choosing points over pills."** At NEWS, Jimmy and Bryan help steer you in the direction of the most natural healing methodology to promote the best, and least toxic, results.

You may be thinking: *what exactly is this magical solution that Dr. Bryan and Dr. Jimmy offer that can reduce, or even eliminate, chronic pain?*

To maximize your results, we take the holistic approach. We'll sit with you to better understand your health background and underlying issue(s). From there, we'll determine the appropriate outlook for your sessions.

The process of Acupuncture Therapy is known to generate the following **pain relieving effects:**

- (1) **Endorphin release**, as it stimulates the body's natural pain-relieving chemicals.
- (2) **Modulation of pain signals**, altering the messages of the central nervous system.
- (3) **Anti-inflammatory effects**, alleviating pain that stems from inflammatory conditions.
- (4) **Improve blood flow**, promoting healing while reducing muscle tension.
- (5) **Nerve stimulation**, releasing neurotransmitters which can block pain signals and promote relaxation.
- (6) **Balance Qi (energy)** through the body's meridians since blocked or imbalanced Qi is believed to contribute to pain and illness.

When it comes to treating chronic pain, regardless of its origin, early treatment greatly improves the swiftness of your recovery. If you or someone you love are suffering from chronic pain that "just won't go away," it's important to know that there are options. **There is hope!**

Rebecca started out skeptical, but lives to tell the tale of her remarkable chronic pain recovery through the means of Acupuncture here at New England Wellness Solutions.
