

The Epiphany of the Lord

"They were overjoyed at seeing the star, and on entering the house they saw the child with Mary, his mother. They prostrated themselves and did him homage. Then they opened their treasures and offered him gifts of gold, frankincense, and myrrh. And having been warned in a dream not to return to Herod, they departed for their country by another way." (Mt 2: 10-12)

SOLEMNITY OF THE EPIPHANY OF THE LORD

By Fr. Larry Rice

**“All of creation is changed by the
appearance of Christ.”**

In popular tradition, the feast of Epiphany commemorates the arrival of the three kings at the stable in Bethlehem where Christ was born. The gospel reading for the day—Matthew 2:1-12—tells the story. Over the years, a lot of tradition has grown around this story. Many people will tell you that the magi were three kings, named Caspar, Balthazar, and Melchior, and they may note that Caspar is traditionally depicted with darker skin. But if you read those twelve short verses from Matthew’s Gospel, it becomes clear that we really know very little about the magi. We don’t know their names. We don’t know where they came from—Matthew only says “from the east.” We don’t even know that they were kings. The word used by Matthew is “magi,” meaning someone learned in esoteric knowledge. Some translations call them “astrologers,” but the only basis for that is the statement that they were following a star. And even the star itself is a mystery. Astronomers can chart the movement of the stars back in time, but they can’t seem to agree about the existence of an astronomical event that would explain the reference. And even the most casual observer would have a hard time explaining what it would mean for a star to move through the sky and then stop over a particular place. Regardless of who the magi were and how the star showed them the way, the most significant

part of this event is the identity of the one who is made known—Jesus, the newborn king, who is worthy of homage by all men and women. The meaning of the epiphany that occurs in this gospel passage is that the “the newborn king of the Jews” is revealed to and recognized by people from far and distant lands. The appearance of mystical signs in the sky makes the point that all of creation is changed by the appearance of Christ. Because God has chosen to become human, all creation and all the people of the earth can experience the redemption he has come to bring.

SAINT JOSEPH PILGRIM ICON - JANUARY 6 & 7

The Knights of Columbus' Pilgrim Icon Prayer Program is a longstanding tradition in which every few years a sacred image is selected to inspire the Knights and their communities. This year, the Knights have chosen an icon of St. Joseph holding the child Jesus from St. Joseph's Oratory in Montreal, Canada.

This Icon will be at all Masses this weekend, January 6/7. Parishioners are asked to pray to St Joseph the Worker, Spouse of the Blessed Virgin Mary, Patron of Workers. In addition to being the spouse of the Blessed Virgin Mary and the foster-father of Jesus, St. Joseph was a carpenter. Through his work of manual labor, Joseph provided for the Holy Family and shared in the divine plan of salvation.

All Weymouth students in Grades 8-12 are invited to participate in the 2023/24 Knights of Columbus Catholic Citizenship Essay Contest. This contest encourages today's youth to be more connected to their community and their Catholic faith through creative writing. The local contest is being hosted by Knights of Columbus Council #729. Student essays must

be original compositions of 500-750 typewritten words that address the following topic:

How can the Church evangelize in the digital age?

In Biblical times, the only way to "carry" good news was to bring it physically, walking from one place to another. Technological advances have opened up numerous additional communication channels, all of which we can use to amplify the rate at which we spread the Word. – Romans 10:14-15

1st Place Prize of \$100 Amazon gift card will be awarded, and their essay sent to the district finals.

Entry forms can be found at the main entrance to our Churches or you can download forms at www.weymouthkofc729.org

Submissions must be dropped at the Hackett Center parish office **no later than Tuesday January 16**. We expect to complete judging and announce the winner in late January.

Good Luck and God bless.

Mike Howell, Grand Knight Council #729

THE SOLUTION FOR YOUR CHRONIC PAIN!

"Ever since I was a teen, I've had debilitating migraines."

"My knee injury is why I gave up sports."

"I've had arthritis for as long as I can remember."

"I get a shooting pain from my lower back that prevents me from walking."

What do all of these people have in common?

They suffer from **chronic pain**. In the US, it's estimated that more than 20% of adults experience chronic pain – that's roughly 50 million people! Although more common among older adults, young individuals fall victim to this as well.

Chronic pain is any kind of significant pain that's stuck around for weeks, months, or even years after the initial injury or condition that caused it has healed. For patient Rebecca C. of Marshfield, age 38, after being injured in a car accident, this meant the inability to walk for nearly 2 years! "My back and hip pain were so debilitating that I found myself bedridden for the majority of my days until I finally tried acupuncture. With each treatment, I feel like I gain at least a sliver of my life back," she remarks.

At **New England Wellness Solutions**, Acupuncturists, and brothers, Bryan and Jimmy Duong believe they hold a large piece to the chronic pain puzzle. "Having helped a multitude of chronic ailments, we have seen time and time again how healing acupuncture can be for people. We pride ourselves in working with our patients to come up with the best solution specifically for them. To supplement our sessions, we discuss appropriate lifestyle tips and tricks to benefit them beyond our clinic's walls," Bryan explains.

Managing chronic pain can be challenging. **Treatment often requires a personalized multidisciplinary approach.** This may include lifestyle modifications, physical therapy, psychological counseling, medications or supplements. Since complete relief may not always be possible for every individual, the ultimate goal is to improve overall quality of life and functionality.

"I may still be unable to dance, but at least now I am able to comfortably stand on two feet! Before I started here, I never anticipated being able to walk again as acupuncture was honestly my last resort in a long line of attempted treatments, but look at me now!" Rebecca shares.

Almost all of our patients come to us with stories similar to Rebecca's. They've been everywhere else. They've been told there's no hope. They've heard, "It comes with aging," shares Lynne, a Patient Care Liaison at NEWS. "It just breaks my heart but I know how much we can help people like Rebecca so I'm always so happy when they come through our door."

Western medicine is often quick to distribute medication as a bandaid or look toward more traditional, costly therapies, like PT, until they end up deeming the chronic pain "untreatable," as they did for Rebecca. This is the point that most people reach right before visiting us, which is why our patients, along with our Practitioners Bryan and Jimmy, embrace NEWS as **"the last resort with the best results."**

Oftentimes, chronic pain is caused (and exacerbated) by underlying medical conditions, injuries or surgeries, nerve damage, musculoskeletal issues, autoimmune diseases, and psychological factors. Because of this, our patients are generally seeking a hail mary attempt at pain management without the surplus of pills – or as we like to say, they're **"choosing points over pills."** At NEWS, Jimmy and Bryan help steer you in the direction of the most natural healing methodology to promote the best, and least toxic, results.

You may be thinking: *what exactly is this magical solution that Dr. Bryan and Dr. Jimmy offer that can reduce, or even eliminate, chronic pain?*

To maximize your results, we take the holistic approach. We'll sit with you to better understand your health background and underlying issue(s). From there, we'll determine the appropriate outlook for your sessions.

The process of Acupuncture Therapy is known to generate the following **pain relieving effects:**

- (1) **Endorphin release**, as it stimulates the body's natural pain-relieving chemicals.
- (2) **Modulation of pain signals**, altering the messages of the central nervous system.
- (3) **Anti-inflammatory effects**, alleviating pain that stems from inflammatory conditions.
- (4) **Improve blood flow**, promoting healing while reducing muscle tension.
- (5) **Nerve stimulation**, releasing neurotransmitters which can block pain signals and promote relaxation.
- (6) **Balance Qi (energy)** through the body's meridians since blocked or imbalanced Qi is believed to contribute to pain and illness.

When it comes to treating chronic pain, regardless of its origin, early treatment greatly improves the swiftness of your recovery. If you or someone you love are suffering from chronic pain that "just won't go away," it's important to know that there are options. **There is hope!**

Rebecca started out skeptical, but lives to tell the tale of her remarkable chronic pain recovery through the means of Acupuncture here at New England Wellness Solutions. Read various other success stories like hers on our website:

"Halfway through my treatments with Jimmy and I am pain free for the first time in 8 months!"

"I am seeing results that physical therapy and other avenues could not deliver. I'm so incredibly grateful for New England Wellness Solutions!!"

Alex W. of Weymouth, MA, age 53, blew out his knee playing pickleball. The lingering pain not only made him miss out on his upcoming tournaments, but he also had to miss events at his children's school. "I felt like a dead weight. I never thought I'd be unable to take care of my own kids. There was no way I could keep up with life without my pain meds."

More than 20% of adults experience chronic pain – discomfort lasting well beyond the typical recovery period.

"As my partner suggested Acupuncture, I laughed, thinking: *How does that even work and why would I ever voluntarily get needed?* Well... it turns out that the recommendation ended up being just what I needed because I began to feel relief as early as the first session. Now, I can even walk again! Truly a miracle."

Fortunately for Alex, Acupuncturists Jimmy and Bryan Duong of **New England Wellness Solutions (NEWS)** are using the time-tested science of Acupuncture combined with modern technology to expedite relief and healing.

Most of our patients come to us the same way, using acupuncture as a last resort mechanism. However, they always report that it's the method that ends up giving them the best results!

For years, the Duong brothers have been relieving people of chronic pain, without the invasiveness or side effects that come along with surgeries and medications. Acupuncture generates pain relief through its anti-inflammatory effects, endorphin release, modulation of pain signals, nerve stimulation, improvement of blood flow, and balance of Qi (energy).

If you or someone you know find yourself in a situation similar to Alex or have any other types of **chronic pains**, Acupuncturists Bryan and Jimmy and the incredible team at NEWS can help!

Our success stories have been spreading all around Massachusetts, and the next one could be you! Our practitioners are currently accepting new patients, but only for a limited time! An initial consultation is required to determine whether or not you are a good candidate for their **holistic, personalized and comprehensive treatments**.
