INDEPENDENT AUDITOR'S REPORT

To the Board of Directors, The Roman Catholic Diocese of Baker

We have audited the accompanying financial statements of the Roman Catholic Diocese of Baker (a nonprofit organization) which comprise the statement of financial position as of December 31, 2017, and the related statements of activities and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Roman Catholic Diocese of Baker as of December 31, 2017, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

INDEPENDENT AUDITOR'S REPORT - CONTINUED

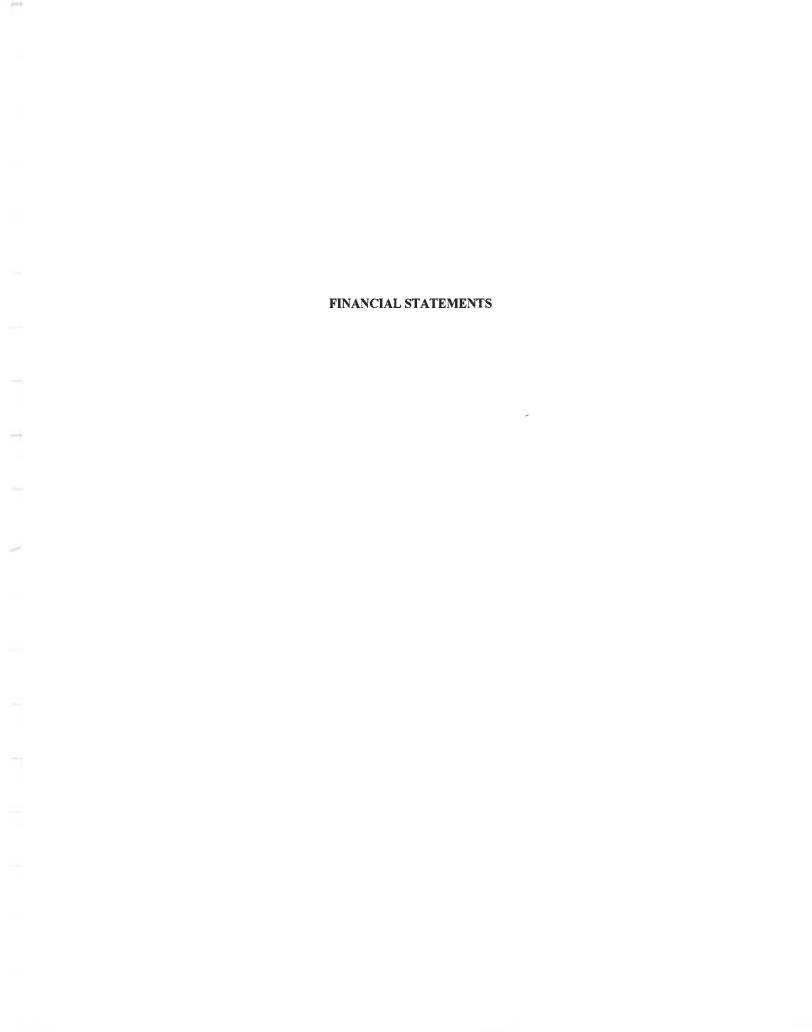

Other Matter

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The Schedule of Net Assets Released From Restrictions on page 15 and the Schedule of Expenses on pages 16-17 are presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Notes to Financial Statements

December 31, 2017

Note A - Summary of Significant Accounting Policies

Reporting Entity

The Roman Catholic Diocese of Baker (the Diocese) has the oversight responsibility over the Catholic Parishes east of the Cascades in the State of Oregon. There are thirty-five parishes, twenty-four missions, and five schools in the Diocese. Each of the parishes, missions, and schools are independent entities under canon and civil law. They submit annual reports to the Diocese for financial, liturgical, and canonical activities.

Basis of Accounting

The financial statements of the Diocese have been prepared on the accrual basis of accounting and accordingly reflect all significant receivables, payables, and other liabilities.

Basis of Presentation

Financial statement presentation follows the recommendations of the Financial Accounting Standards Board in its Statement of Financial Accounting Standards (SFAS) No. 117, "Financial Statements of Notfor-Profit Organizations". Under SFAS No. 117, the Diocese is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Use of Estimates

The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Property and Equipment

Acquisitions of property and equipment in excess of \$1,000 are capitalized. Property and equipment are carried at cost or, if donated, at the approximate fair market value at the date of the donation. Depreciation is computed using the straight-line method over the estimated useful life of the asset. The Diocese estimates the life of building and improvements to be 50 years and equipment at 5 years.

Revenue Recognition

Contributions and grants received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and/or nature of any donor restrictions. All donor-restricted contributions or grants are reported as an increase in the temporarily or permanently restricted net assets depending on the nature of the restriction.

Notes to Financial Statements, continued

December 31, 2017

Note A - Summary of Significant Accounting Policies, continued

When a restriction expires (that is when a stipulated time restriction ends or the purpose restriction is accomplished), temporarily restricted net assets are reclassified to the unrestricted net assets and are reported in the statement of activities as net assets released from restrictions.

Income Taxes

The Diocese is exempt from federal and state income taxes under Internal Revenue Code Section 501(c) (3).

Contributed Services

The Diocese receives a substantial amount of services donated in carrying out the Diocese ministry. No amounts have been reflected in these financial statements for those services since they do not meet the criteria for recognition under SFAS No. 116 "Accounting for Contributions Received and Contributions Made."

Cash

Cash includes all monies in banks and highly liquid investments with maturity dates of less than three months. The carrying amounts of cash approximate fair market value because of the short maturities of those financial instruments.

Investments

Investments are valued at fair market value as of the balance sheet date. Unrealized appreciation or depreciation of the investments is recognized currently in income.

Comparative Data

Comparative total data for the prior year has been presented in the accompanying financial statements in order to provide an understanding of the changes in the Diocese's financial position and operations. However, such information does not include sufficient detail to constitute a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with financial statements for the year ended December 31, 2016.

Note B - Cash and Cash Equivalents

The total cash held by the Diocese at December 31, 2017, was \$4,650,567 of which \$3,000,000 is considered restricted as part of a loan agreement. The cash is held in demand accounts and money market accounts. The bank balance exceeded FDIC coverage at times during the year. It is the opinion of the Diocese that the solvency of the financial institutions is not of concern at this time.

Note C - Fair Value Measurements

Financial Accounting Standards Board Statement No. 157, Fair Value Measurements (FASB Statement No. 157), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Statement No. 157 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Diocese has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- · Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Diocesan investments at fair value as of December 31, 2017:

	_	Level 1	L	evel 2	Le	vel 3		Total

Note E – Property and Equipment

Property and equipment are recorded at cost. Depreciation is provided on the straight-line method over the estimated useful life of the asset. Maintenance and repairs are charged to expense as incurred; major renewals and betterments are capitalized.

The following is a summary of the changes in property and equipment:

		Balance						Balance

Note F - Loan Fees

The Diocese financed the construction and remodel of key buildings and churches within the Diocese. Loan Fees associated with the finance are amortized over the life of the loan. During the prior year the Diocese refinanced their loans with Knight of Columbus. The previously amortized loan fees were expensed, and fees associated with the new loan are amortized over 20 years. Below is a schedule of amortization:

		Balance muary 1, 2017	A	dditions	Deletions	22	Balance ember 31, 2017

Note G - Notes Receivable

The Diocese loans money to various Parishes and Priests in the normal routine of the Diocese activities. The loans are repaid to the Dioceses in installments with 6.0% to 7.0% interest. As of December 31, 2017, the Diocese had three loans totaling \$2,983,808 due from Parishes and four loans due from Priests totaling \$425,320.

Note H - Amounts Due Parishes

The Diocese offers the Parishes an opportunity to invest their available cash with the Diocese which in turn invests the funds in their investment program. The Diocese adjusts the rate of return semi-annually; currently the rate is 2.0% on the funds invested with the Diocese. At December 31, 2017, the Diocese held \$6,879,144 of the Parishes funds in its investment accounts.

Note I – Long-Term Notes Payable

The Diocese refinanced all its notes into one obligation through Knights of Columbus during the prior year. The terms consist of a fixed 4.58% rate payable over 20 years. The note is secured by Diocesan property. As part of the loan agreement the Diocese is required to maintain a minimum three-million-dollar balance in a collateral account. During 2017 fiscal year the Diocese was in compliance with this loan convent. The note balance at December 31, 2017 was \$10,980,539.

The transactions of the long-term debt for 2017 are as follows:

	Balance			Balance
	January 1,			December 31,

Note K - Permanently Restricted Net Assets

Net assets were permanently restricted for the following purposes:

Parish Travel	\$ 264,000
Retreat	1,000,000
Mass Stipend Endowment	5,000
Seminary	148,999
Total Permanently Restricted Net Assets	\$ 1,417,999

Note L - Annuities Held in Trust for Others

The Diocese holds \$99,769 in trust for individuals. The Diocese is holding these accounts in trust and has guaranteed annual payments from these accounts in total of \$10,997. Based on the life expectancy tables, the funds held in trust are adequate to meet the annual required payments.

Note M - Pension Plans

The Diocese has two retirement plans for its employees. The first plan is for the active priests that are employed by the Diocese. A contribution of \$300 per month is made for the active priests. This is a defined contribution plan and there is no additional liability to the Diocese for this plan. The Diocese paid \$3,600 into this plan in 2017.

The second plan is for all other employees of the Diocese. The Diocese contributes 6% of qualified wages of eligible employees. An employee is eligible for the plan if they are employed full-time. An employee is considered full time if they work more than 20 hours per week.

The plan allows for employees to make volunteer contributions when first employed. There is a one year waiting period before employer contributions are made to the plan for full-time employees. The Diocese cost for 2017 was \$28,758.

Note N – Restatement

Subsequent to the issuance of the Diocese's 2016 financial statements, management became aware that the 2016 financial statements had incorrectly reported unrestricted net assets and temporarily restricted net assets as well as misclassified prior year amortization expense associated with loans fees as accumulated depreciation. As of December 31, 2016, the corrected amounts have been recorded and the 2016 have been restated. The effect of this restatement and reclassification on the financial statements at December 31, 2016 was as follows:

	Reported	Restatement	Restated
Accumulated Depreciation	(1,450,888)	10,147	(1,461,035)
Loan fees, net of amorization	202,934	(10,147)	192,787
Unrestricted net assets	2,706,662	(38,416)	2,668,246
Temporarily restricted net assets	669,332	38,416	707,748

Note O – Subsequent Events

Management evaluated all activity of the Diocese through the report date, which is the date on which the financial statements were available to be issued and concluded that no other subsequent events have occurred that would require recognition in the financial statements or disclosure in the notes to the financial statements.
