

How to sign in to Google Classroom:
(For parents/students)
Ipad version

First, you need to download the Google Classroom and Google Meets apps on to the iPad.

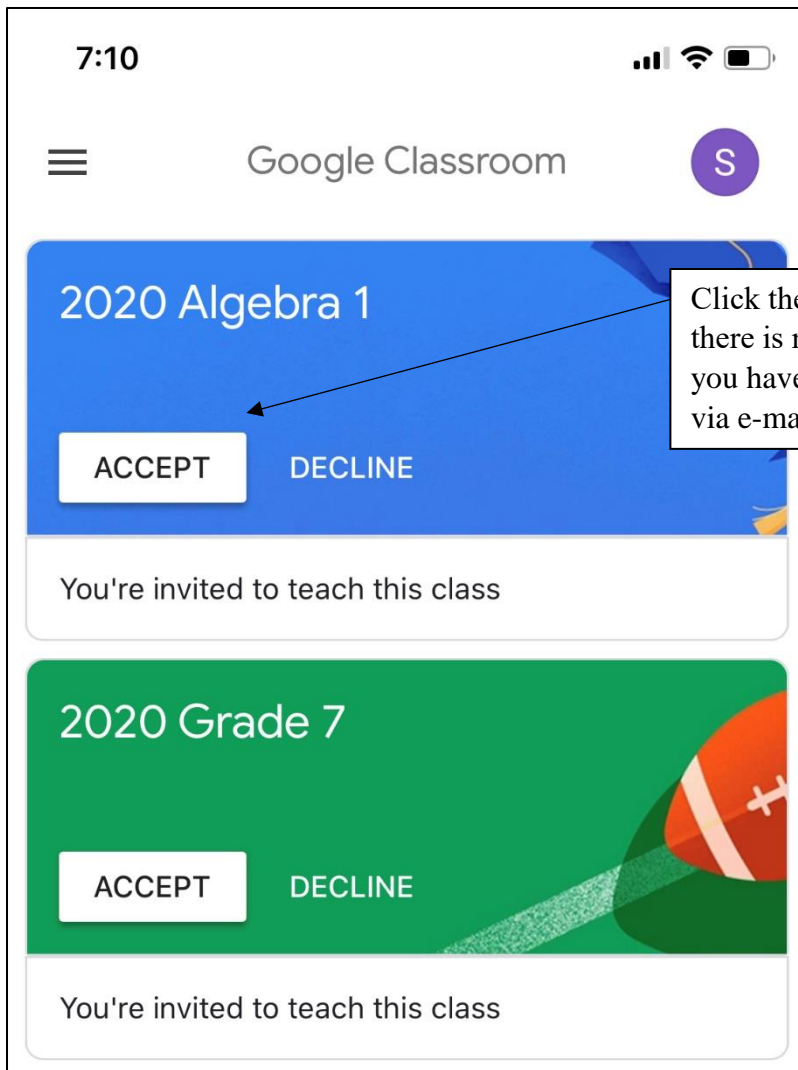

Sign in to Google classroom using the e-mail (ending in @stceciliafc.com) and password provided by school.

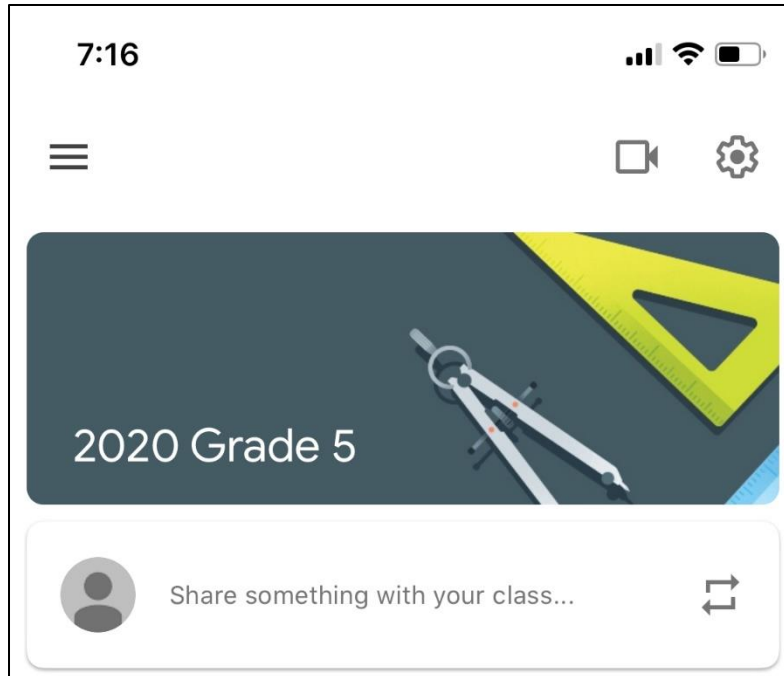

If you are signing in for the first time (ever or this year), you may have to “Accept” the invitation to your class from your teacher.

For upper grades, you will have multiple classes for the different subjects. This will help you stay organized.

For the younger grades, you will have one subject to connect to each day.

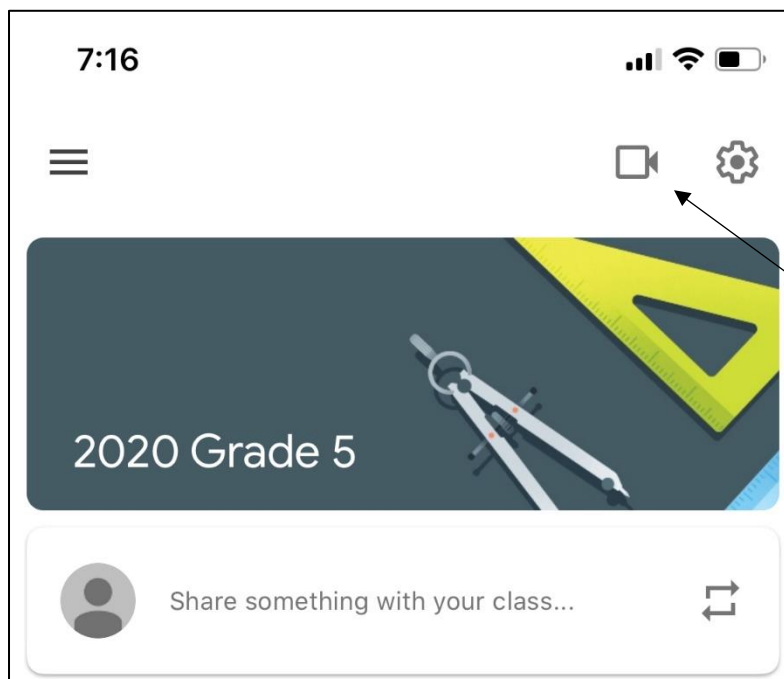

After you “Accept” the class, you can simply click on that subject or grade to access the live stream and important information for your classroom.

Here is where you can see announcements from your teacher, post assignments, and ask questions!

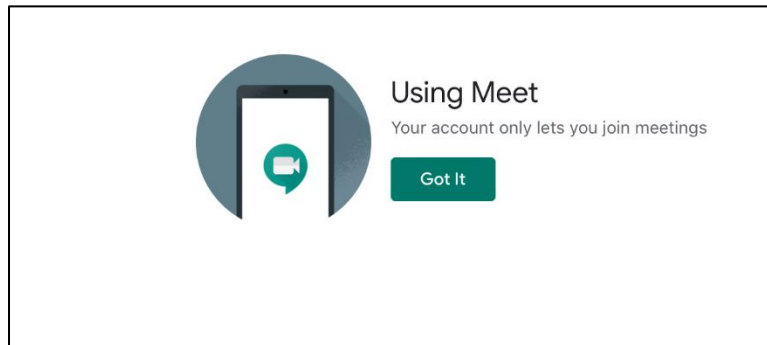

You can also access the Live Stream for this class or subject!

Click on the Camera icon to enter the Live Stream for class.

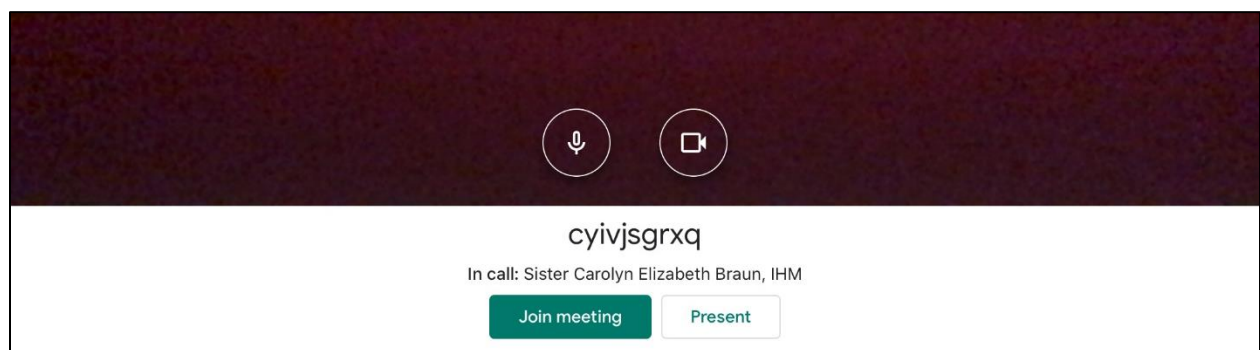

If the camera icon is not visible, than the teacher has not make the live stream accessible yet. Be patient. Your teacher will do that very soon!

After you click on the camera icon, it is possible that you click on it before the teacher has started the Live Stream. If that happens, you will see a screen that looks like this.

Again, be patient. Click back out of the live stream. Wait just a few minutes. Then click on the camera icon again.

The screen will look something like this when the teacher has the live stream started.

Click on “Join Meeting” to access the live stream instruction from your teacher.

When your teacher instructs you, you can end the live stream by clicking the hang up icon.

That’s it!

Please contact your homeroom teacher with any questions or concerns!
