Studies have shown that Chess improves academic performance, focus, logical thinking, and teaches responsibility for decisions.

Joel Salman and Jason Luchan are ranked within the top 3% of tournament players. They have taught Chess classes for children across Long Island for over 20 years.

The classes will feature a short lecture about Chess strategy followed by guided play. Children will have the opportunity to compete in a tournament for trophies. Classes are designed to present chess as a constructive form of recreation that the children enjoy.
