great job overall.

# PSA Survey Results: Feedback to Think About

If you have any other questions, ideas concerns please leave them below:

Listen to the parents, listen to the children and what they like and want, not what is easier or how one thinks it should be. Kids should come first. We feel like its all about the money and not the children and family.

I couldn't volunteer for one of the 4 mandatory fundraisers, because there was no way I could commit 100% without missing a beat, so I paid the \$400. I would prefer helping out at what I could do without it being an all or nothing request. I know this influenced others volunteering for those as well.
