July 2025

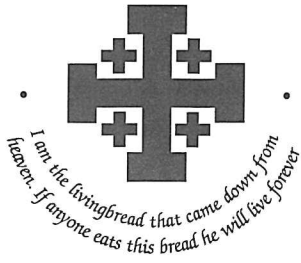

Dear Prospective Educator, I hope this letter finds you well and inspired by the opportunities that lie ahead in Catholic education. At St. Patrick School in Bay Shore, we are deeply committed to nurturing the minds, hearts, and spirits of our students. As we prepare for the upcoming 2025–2026 school year, we are seeking passionate, mission-driven professionals to join our exceptional faculty and contribute to our vibrant Catholic school community.

We currently have two exciting teaching opportunities available:

The first position is for a part-time foreign language teacher, serving students in grades K–8 for approximately 26 hours per week, Monday through Friday. This role involves delivering engaging instruction aligned with the New York State Learning Standards for World Languages, with a focus on:

- **Interpersonal Communication:** Engaging students in spontaneous spoken or written exchanges in the target language.
- **Interpretive Communication:** Helping students understand spoken or written language presented in various formats.
- **Presentational Communication:** Guiding students to create spoken or written presentations for diverse audiences.
- **Cultures:** Encouraging students to explore and understand cultural practices, products, and perspectives of the language being studied.

The second position is a full-time middle school science teacher, responsible for Grade 7 General Science and Grade 8 Regents Biology. The role includes instruction in NYS-mandated laboratory investigations, preparing students for the Living Environment Regents Exam, and facilitating active scientific inquiry. This teacher will also lead 8th-grade health and religion instruction for the homeroom section, integrating a holistic, faith-based approach to student well-being and moral formation.

We understand that exceptional educators may come from diverse backgrounds. In accordance with New York State guidance for non-public schools, teachers are permitted to teach outside their area of certification for up to one academic year without issue. This flexibility allows highly capable and mission-aligned individuals to explore new subject areas or educational levels while still meeting the needs of our students.

In addition, teachers at St. Patrick School benefit from access to a wide range of professional development opportunities offered through the Diocese of Rockville Centre (DRVC). These include workshops, instructional coaching, curriculum alignment resources, spiritual formation sessions, and ongoing support in instructional best practice; ensuring you grow not only as an educator but also as a leader in Catholic education.

Joining the Shamrock team at St. Patrick School means becoming part of a joyful, faith-filled, and student-centered community. Our faculty is known for their dedication, warmth, and unwavering belief in the mission of Catholic education. If you are inspired to make a difference in the lives of children and serve through teaching, we invite you to apply and consider becoming a part of our school's legacy.

Please feel free to reach out directly with any questions or to express your interest in one of these opportunities. We look forward to welcoming new team members who are eager to grow, serve, and make an impact.

With Sincere Appreciation,

Principal Christine E. Glynn
