- Any technology use or use of social networking sites to display any wording or images of any student engaged in any activity which, in the sole discretion of the school administration, is inappropriate, crude, vulgar, or a violation of values consistent with the Catholic faith, or is illegal in any respect, will be subject to disciplinary action, including, without limitation, suspension, expulsion and/or legal action.

Artificial Intelligence / Natural Language Processing Tools - The Department of Education (DOE) and schools of the Diocese of Rockville Centre recognize that technology in our global society is ever-changing. Students are expected to use their own knowledge and skills to complete their schoolwork. When students use resources for informational purposes to support their learning, they are expected to give credit to the original source (i.e. bibliographies, quotations, footnotes, etc.) To promote academic integrity and ethical use of technology, students are not permitted to use Artificial Intelligence (AI) and Natural Language Processing (NLP) tools to complete their schoolwork except as outlined below.

Students may use AI/NLP tools in the school setting if they receive prior permission / consent from their teacher(s) for specific lessons, assignments, and activities in the instances stated below:

- Research: students may use AI/NLP tools to learn how to quickly and efficiently research topics and learn how to create search prompts provided students acknowledge use of the AI / NLP tools if any of the information returned is included in their completed assignments.
- Data Analysis: students may use AI/NLP tools for assistance in interpreting data provided students acknowledge the use of such tools when completing and turning in assignments.
- Accessibility: AI/NLP tools may be used by students to help them access and understand written materials in special circumstances.

The DOE acknowledges that, at the principal's discretion, teachers may use AI / NLP tools with their students for additional purposes.

It is important that students recognize that AI/NLP tools do not always return factually accurate information, and it is the responsibility of the student to verify information is correct before including such information in their schoolwork.

It is expected that students will use AI/NLP tools in an ethical manner and that teachers will discuss such with students prior to use of AI/NLP tools in the classroom. Use of AI/NLP tools by students is expected to conform to values consistent with the Catholic faith, both inside and outside the school setting.

I have read, understand, and agree to the terms of this acceptable use policy and I have discussed it with my child/children, who also agree(s) to the foregoing terms. I understand this policy applies to usage of school technology resources both at home and at school.
