

## 3rd Grade into 4th Grade Summer Math Work

Directions: Students who will be new to Trinity next year are expected to complete the following work. There will be 6 Google Forms each with up to 10 questions. Use your knowledge of math strategies taught this year to help you solve the problems. You do not need to complete all 6 forms at once, you can spread them out throughout the summer, however all questions in one form must be completed at the same time. Make sure you check the form over before hitting submit because once you do there is no changing your answers and if it is marked wrong it will be wrong. The Google Forms are all linked below, they can be done by using a parent's email just please make sure to put the students first and last name. Forms are due Wednesday, September 3rd. All summer work combined will count as your first math test of 4<sup>th</sup> grade.

Current Trinity Students: Please refer to our Summer Google Classroom to access all Summer Work.
