

From the Principal

Happy Memorial Day!

First off, I would like to remember all those who gave their lives in the service of our country. Many of our families have been touched by their sacrifice, and all of us benefit from their service. Please take a moment today to remember and send a prayer of thanks to all the souls who are no longer with us because of their ultimate sacrifice for our freedom.

This week is an exciting week at STB. We will celebrate and honor our senior class this Friday during graduation. It is wonderful to invite them and their families back to campus for their final gathering as STB students. After the celebration, they will become part of one of the best alumni high school groups in New England, if not the world.

STB alumni are an amazing group of people. I have worked with many colleges and universities throughout my career. One of the ways that colleges are successful is through their alumni; STB is no different. We have generations of families that attended and continue to attend STB because it is different from other places.

Growing up in Leominster, I never understood the draw and legacy of STB. However, having spent the last three years here, I am constantly in disbelief at the support, encouragement, and dedication that all of our alumni bring. This is a special place, there is no denying that. It is a high school that should be closed and just a memory at 45 Harvard. However, we're not. We are strong, we are faithful, and we are growing. Now more than ever, it's time to believe that our high school is the best. Many high school-aged kids I meet don't have much "school spirit." Going to Leominster, Fitchburg, or STB doesn't carry the same weight it did when I was in high school. I believe that we are seeing that change in our school. Our academics are becoming more rigorous, our sports teams are qualifying for the playoffs more often than ever, and our students are more dedicated to our mission.

It is a great time to be an STB student; it is even a better time to be an STB graduate. I am very proud of our seniors and know they will do amazing things. I, along with all the faculty and staff, look forward to celebrating with your students and family this week. This will always be your home. Come and visit us, we love to hear from you and see your faces. Congratulations, class of 2026, we love you!

God Bless STB
