FRANCISCAN CORNER

Outside the walls

Francis of Assisi was born in 1182 and died in 1226. He was frail in his youth. He had a long recovery from illness he got while in the prison in Perugia. He embraced and kissed a leper! He didn't take care of Brother Body, and thus he was ill for much of his life. Some think he died of a form of leprosy. He died outside the walls of Assisi. He died away from family. He died surrounded by those who became his brothers. Today many people are dying away from their family who are not allowed to be with them. They are dying surrounded by doctors and nurses who have become family. Let us pray for those who have died, for their families and for their "new" family members who held their hands as they took their last breaths and entered paradise.

Please Remember in Your Prayers

For all those we hold deeply
in our hearts,
may they be remembered.

St. Charles, pray for us!
