## Prayers for the Sick

*This is a list of parish members who have requested prayer support as they learn to live with and/or recover from injuries or illnesses. If you believe in the power of prayer, keep this list nearby so that you can commend them to God's mercy and love. Please be sure to notify the office when you or a loved one is on the mend so we can make room for others.*

**CONTINUED FROM LAST WEEK**

In September of 2003 Professor Robert Lawrence confirmed that in the light of the new investigations one could conclude that the sample could correspond to the tissue of an inflamed heart. He said the heart had suffered a lot. To clarify any doubts, on March 2, 2004 the matter was referred to a cardiac pathologies and forensic medicine expert of the heart, Professor Frederick Zugibe of New York, at Columbia University. The professor did not know that the sample brought to him came from a consecrated Host. The professor said, 'The sample which you brought me is the muscle of the heart, of the myocardium, it is precisely the left ventricle' and he confirmed that the person's heart had suffered a lot, at certain moments the person could not breathe, the person labored and suffered much. He added, some intact white blood cells were found and added that white blood cells are transported only by the blood and thus if white blood cells are here it is because at the moment in which you brought me the sample it was pulsating.' The professor then asked who the sample belonged to. He was told it came from a consecrated Host. He was greatly moved. ***The myocardium is the muscle that gives life to the whole heart and to our body.*** There was symbolism in these findings. The Lord in this miracle wanted to show us *HIS* myocardium, which is the muscle that gives life to the whole heart, just as the Eucharist does with the Church. And why the left ventricle? Because from it comes the purified blood and Jesus is the one Who purifies his Church from her sins. Professor Zugibe repeated, 'at the moment you brought me this sample, this heart was alive!' *His report was sent out on March 26, 2005, 5 years and a half after the start of the studies* and the conclusions were: 'They are tissues of the heart, undergoing degenerative changes of the myocardium and these changes are due to the fact that the cells are inflamed and it is the left ventricle of the heart.'" On March 17, 2006 I brought the results to Cardinal Jorge Maria Bergoglio.

**2023 Annual Catholic Appeal**

This weekend, our parish is conducting the Annual Catholic Appeal. Please remember that the Annual Catholic Appeal is much different than a one-time special collection. It is a pledge campaign where you can make a gift payable in installments.

The Annual Catholic Appeal theme, *"God Reveals Himself"* was selected to remind us that our actions, our prayers and our financial investments in vital ministries of the Church are all given in to honor and serve God.

Each pledge makes a difference! Your generous support enables our Archdiocese to deliver needed ministries and services that impact all parishes and people of all ages throughout the central and western Oklahoma

Thank you for your prayerful consideration and generous response.
