FIVE COMMON MYTHS ABOUT PRIESTHOOD: A GUIDE FOR PARENTS

Year after year, in surveys of newly ordained priests, over half report that their families opposed the idea of priesthood when they first expressed interest. Undoubtedly, parents want the best for their children.

So, what about priesthood does not fit parents' vision of "the good life"?

Each week we will explore one of the five common myths about the seminary and priesthood.

MYTH #2 "CELIBACY IS IMPOSSIBLE."

For couples who enjoy a healthy sexual relationship, it can be difficult to image their son choosing "life without a wife." Society would have us believe that celibacy is impossible, or at the very least, unreasonable. The truth is that sexual love is indeed one of God's greatest natural gifts, but that thousands of saints have experienced tremendous joy living the supernatural vocation of celibacy. Today's seminaries offer superb formation in how to live celibately with peace and joy.
