

Hello from Ms. Katie

KINDERGARTEN

<https://www.stcatholicsschool.org/kindergarten>

Plant Parts

We have been learning about the anatomy of plants through our Knowledge Unit 4. We conducted an experiment where students put food coloring, any single color and color combination, into a cup of water with a white flower or stem of celery. The students have been loving the transformation that's happening and using their terminology we have learned. We have been using words like stem, roots, photosynthesis, and soil.

Voting, President, Governor and Mayor

We have been learning so much about democracy, voting, and the roles the President, Governor, and Mayors play in creating laws and protecting our communities.

We conducted our own election, made voting booths, elected candidates for our favorite cookie, class pet, and favorite snack. The results may surprise you! We talked about disappointments that happen after elections, when our favorite candidate isn't elected and how we can find positives through our sadness.

Ask your students all about it! They have been sharing their vocabulary words, like candidate, ballot, and voting badge (or sticker), with other students and making sure no one "wastes their vote!" (lol) Kids pick up everything they hear!

CKLA Skills and Knowledge

The week of November 14-18 during Knowledge work we will be reading about the fruits of labor, Johnny Appleseed, and different kinds of trees.

In Skills we will start the week by reviewing the sounds we have learned thus far. Coming next will be learning the /v/, /z/, /p/, and /e/ letter sounds.
