## From the desk of Father James

Today we find the disciples out fishing. With some of the weather that we have been having, I am sure that there are many that are thinking about fishing. Jesus' disciples are not having any luck. They had been fishing and fishing and did not catch a thing. But, Jesus advises them to drop the net on the other side and suddenly they had more fish than they could even bring into the boat.

Sometimes in life we struggle so much with whatever task that we have before us, and no matter how hard we try and no matter how hard we work, it just does not seem to work out. Maybe we need to listen to Jesus today and cast the nets to the other side, trying something totally different and new. We might be surprised at the results.

Moving on to a completely different subject, I just wanted to point out to everyone that we still are going to be having Mass on most Mondays at 12:05 pm. We have had a great turnout during Lent for this added time and I continue to plan to celebrate Mass on Monday whenever possible.

Also, I want to remind people that we continue to have confessions on Wednesday evening from 5:00 pm to 5:45 pm, just before Mass at 6:00 pm. I would encourage those that may not be able to attend weekday Mass in the morning that this would give an opportunity to be nourished by the Lord in Word and Sacrament during the week!

Have a blessed week!!

Happy Easter!!

Fr. James

## Catholics Can Come Home

Each of us very likely knows someone who is no longer a practicing Catholic. At St. Francis there is a team who works to welcome these folks back to the Church. This team helps those who have left the practice of the faith to work through issues and relationships that have caused hurtful feelings of abandonment, isolation, rejection, or sometimes, a lack of connection.

Members of the Catholics Can Come Home team work to provide a listening ear without judgment or preconceived notions of those who are seeking the possibility of a return to the Church.

If you would like to be considered as a member of this team, contact Linda Blackwood, 503-625-6185 or [linda@stfrancissherwood.org](mailto:linda@stfrancissherwood.org)

There is additional information for Catholics Can Come Home on the parish website.

# St. Francis School

*Accredited through June 2020*

We would like to take the opportunity to share with you the exciting things happening in the first grade at St. Francis.

In Math, we are learning geometry. The children have been learning to identify and sort plane figures as well as count the number of sides and vertices. We will also learn about solid figures, symmetry and congruent shapes.

As they have grown in their reading skills, the first graders have found a love of reading. Throughout the year, we learn many strategies and skills that help build our reading fluency, accuracy, comprehension and vocabulary. This week, we are learning about cause and effect. We will look for events in stories and discuss what happened and why it happened.

The first graders are also budding authors. The children have mastered the rules for writing sentences, are skilled at writing an engaging topic sentence, and have mastered the idea of sticking to one topic in a written composition. Last week, we wrote about how our families celebrated Easter. We also explored creative writing. We began writing about a lost Peep. It is amazing to see the children's creativity show through their writing.

Our Religion lessons are centered around the Resurrection. We discuss the signs of new life that we observe in spring. We compared this to what we observe in winter. The signs of new life we observe in spring relate to Jesus rising to New Life at Easter. We have been learning about Jesus' appearances to the apostles after the Resurrection. In addition, we have been discussing Jesus' glorified body and will continue this discussion this week. The children will learn about the apostle Thomas. Thomas was not present in the upper room when Jesus appeared to the apostles. Because he had not seen, he did not believe. Jesus came to the apostles again. This time, Thomas was present.

We participated in the K-4 Science Fair this Thursday. The children have been learning about Space and the Solar System. Each student selected a planet or constellation that they were interested in learning more about. They researched and wrote a ten sentence report about their chosen planet or constellation. They then began working on creating a model of the planet or constellation. We truly enjoyed sharing our work and what we have learned with the community.

Thank you for allowing us the opportunity to share with you the exciting things that are happening in the first grade.

God bless you.

Miss Skipper and the first grade students

**Which is the best way of participating in the Sacrifice of the Mass?** The best way of participating in the Sacrifice of the Mass is by offering it to God in union with the priest, offering ourselves to the Father with Christ the Victim, and receiving Him in Holy Communion.
