

Summer IXL Math Skill Log

Practicing math throughout the summer will help your child retain the skills they've worked hard to develop this year and build a strong foundation for continued success. Students are required to complete 10 teacher-assigned IXL math lessons, earning a minimum score of 80% on each to receive credit. For directions on how to access the assigned lessons, please scan the QR code on the Summer Assignments document. As you complete each lesson, be sure to record your progress on the Summer IXL Math Skill Log. All logs must be turned in to your child's homeroom teacher on the first day of school.
