All volunteers working with children are required to follow our Safety Environment protocols, including a background check, participating in Protecting God's Children, and following up with monthly Virtus bulletins that provide information on the safety and well-being of our parish children. Did you know? (Part 7)

The most recent United States abortion data, as reported by studentsforlife.org, shows that:

- There were 204 abortions per 1,000 live births (about 1 in 5) in 2023. This means for every five people, there is one missing because of abortion.
- Abortion has always disproportionately affected minority communities. Almost 80% of Planned Parenthood's abortion facilities are located in minority neighborhoods. 88% of its new "mega facilities" are located within walking distance of minority neighborhoods.
- About 12% of Americans are Black, roughly half of whom are women. Yet they are sold about 34% of all abortions.
- More Black Americans have died from abortion than from AIDS, accidents, violent crimes, cancer, and heart disease combined.
- It's estimated that 19 million Black babies have been killed by abortion since its legalization.

Our Lady of Guadalupe,

Pray for an end to abortion.
