The kingdom of God is like a mustard seed
that is the smallest of all the seeds.
But once it is sown, it springs up
and becomes the largest of plants.

Pastor's Corner

Today's scripture speaks of cedar trees and mustard plants. Cedar is a very beautiful evergreen that has a powerful odor about it. The fragrance prevents marauding insects from infesting them. When the ancient Hebrews built the Ark and the Tabernacle, *the insides were lined with cedar*. Many Tabernacles, including ours at Saint Raphael Church, are lined in cedar.

Mustard seeds are not indigenous to California. Like oranges and other fruits, they came over from Spain. Their influence on society is immense. When the Spanish discovered California, they wanted to be able to find it again. They took whatever mustard seeds they had and scattered them along the coast. It is said that Junipero Serra was actually the fellow who did this. When they returned to California a couple of years later (in July), they were able to find the Coast because of the bright yellow flowers which could be seen for miles and covered a large area of the "Alta California".

Holy Scripture (like Parables and Sacramentals) point to God. What is the message we can take with us today? I offer you this: God's love is eternal and offered to us (evergreen). Being in a state of Grace (cedar lining) will always prevent us from being separated from God by evil. Doing the smallest thing in our lives WITH GREAT LOVE will impact people even after we have done the deed. The smallest act of love multiplies and is never forgotten by God. When God's love is present and nurtured, it gives life order, direction and purpose.

By virtue of your Baptism the seed of God's life (Grace) has been planted in you.

May it grow in you. Do not allow it to die, do not fail to nurture it, do not fail in spreading the "Good Seed" of God's divine presence.

Msgr. Jon F. Majarucon

Protecting Our Children

When teens start dating, they often feel pressure to keep up with their peers and to explore new romantic feelings. But these feelings, combined with teenage hormones and decision-making capabilities, can lead to some poor choices, including sexting. Sending nude images is dangerous and puts the sender and the receiver at risk. Photos can be shared instantly on cell phones and social media, and once out there, the images never go away. Talk to your teen about the consequences of sexting and the importance of building healthy relationships where partners respect boundaries and don't ask for explicit images. For more information, visit https://www.missingkids.org/content/dam/netsmartz/downloadable/discussion-guides/your-photo-fate-discussion-guide.pdf.

Protegiendo a Los Niños

Cuando los adolescentes comienzan a tener citas, a menudo se sienten presionados a mantenerse al día con sus compañeros y a explorar nuevos sentimientos románticos. Pero estos sentimientos, combinados con las hormonas adolescentes y la capacidad de tomar decisiones, pueden llevar a algunas malas decisiones, incluido el sexteo. Enviar imágenes de desnudos es peligroso y pone en riesgo al remitente y al destinatario. Las fotos se pueden compartir instantáneamente en teléfonos celulares y en redes sociales, y una vez allí, las imágenes nunca desaparecen. Platique con su hijo adolescente sobre las consecuencias de sextear y la importancia de construir relaciones saludables en las que sus parejas respeten los límites y no pidan imágenes explícitas.
