

### **Valid Baptism Certificate Required**

If we baptized your child at IHM, we do not need a copy of his/her Baptism Certificate, although we will need approximate date of baptism, so this information can be verified. Please fill this information in on the registration form.

If your child was not baptized at IHM, we must have a copy of the updated Baptism Certificate in our office as soon as possible, or by the Discernment Interview date.

It is the responsibility of the parent to contact your child's church of Baptism and request a copy of the Baptism Certificate.

When you request a current Baptism Certificate, they will ask for personal information they need to find your child's record.

You can also ask that the certificate be mailed directly to IHM:
