RECOMMENDATIONS FOR MASKING

- During periods of high COVID-19 activity levels and during an outbreak.
- Any student or staff member who tests positive for COVID-19 will need to mask from day 0 through day 11 (even at home if you live with other people). Day 0 is the date of your positive test or your first day of symptoms.
- Regardless of vaccination status, all individuals exposed to COVID-19 must wear a face mask up to 10 days following the exposure.
- If a person has an immunocompromised condition.

Note: If a mask cannot be worn, it is safest to continue isolation through day 10 if COVID-19 positive.
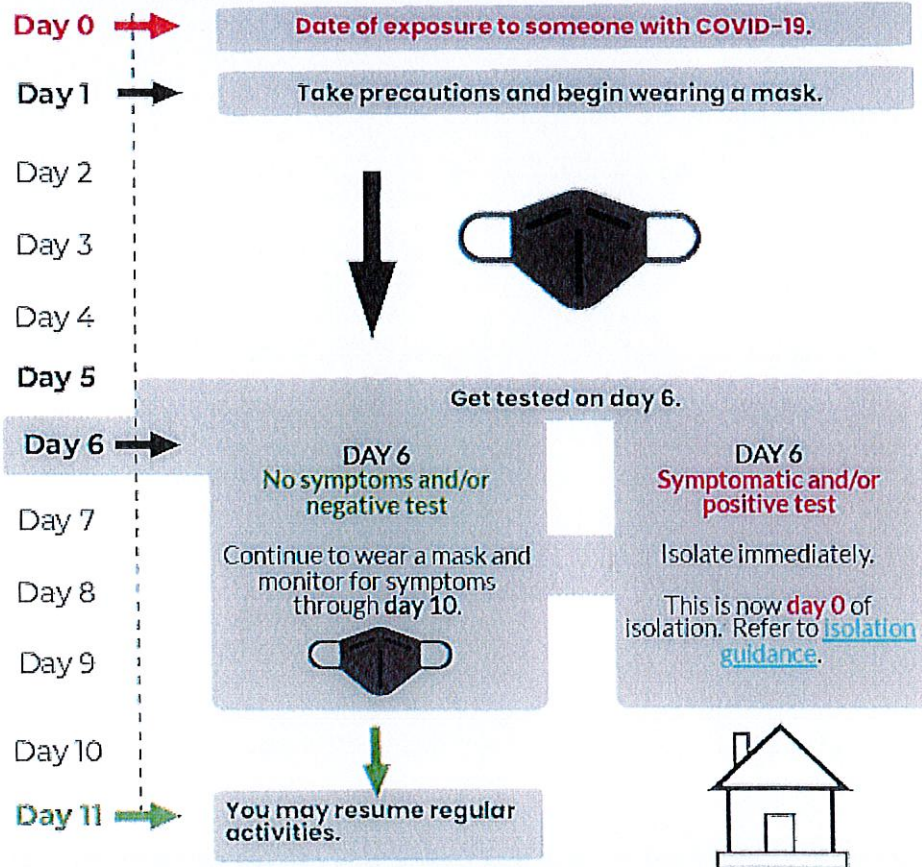

PARENTAL SYMPTOM SCREENING

Parents and family caregivers are strongly encouraged to closely monitor their children for signs of illness every morning before they leave for school.

- Do not send your child to school if they have a fever and/or tested positive for COVID-19.
- Parents are encouraged to reach out to their school nurse with questions.

See below recommendations of what to do if you are exposed to someone with COVID-19

What to Do When Exposed to COVID-19

NJ Health New Jersey Department of Health   **OCDS**

Day 0 →	Date of exposure to someone with COVID-19.
Day 1 →	Take precautions and begin wearing a mask.
Day 2	
Day 3	
Day 4	
Day 5	
Day 6 →	Get tested on day 6.

DAY 6
No symptoms and/or negative test

Continue to wear a mask and monitor for symptoms through **day 10**.

DAY 6
Symptomatic and/or positive test

Isolate immediately.

This is now **day 0** of isolation. Refer to isolation guidance.

Day 7

Day 8

Day 9

Day 10

Day 11 → You may resume regular activities.

COVID TESTING

- Regardless of vaccination status, students and staff who experience symptoms of COVID-19 are recommended to test, and if positive, isolate for 5 days minimum.
- If you were exposed to someone with COVID-19, get tested on day 6 following contact. If results are negative, then continue wearing a face mask and monitor for symptoms until day 10.
