A new year and colder days brings us to learning about one of our favorite things – snow! We will discuss some of the animals and people that live in snow as well as investigate ice freezing and melting. Towards the end of the month we will enjoy some fun in the snow inside and outside. The task of building a strong bridge will be our STEM challenge this month in attempting to hold up some matchbox cars.. Letters K, L and M will be introduced this month, as well as the introduction of some sight words. We end the month with Catholic Schools Week – watch for more info as it approaches!
