How do the Catholic schools within the diocese screen school personnel?

All adult employees in the Catholic schools are given a criminal background check prior to employment. Employees and applicants subject to this screening process may not work with or be around minors until successful completion of the entire background screening process, including reference verifications, and the Safe Environment Program training is accomplished.

Who must comply with the Safe Environment Program?

The Catholic schools have a particular responsibility to take steps to ensure that, as far as possible, those who serve and those who are served have a safe and healthy environment in which they may live, work, play, and pray. All personnel and volunteers must comply with the Safe Environment Program and the Diocese of Knoxville Policy and Procedure relating to Sexual Misconduct.

How are volunteers defined?

Volunteers are defined as any individual who has the opportunity to be alone with or in proximity to either a minor (below 18 years of age) or a vulnerable person. Any person who plans to volunteer at the school, in classrooms, chaperone school trips, or assist with school activities must submit to a background check and successfully complete the Safe Environment Program training known as Safe Haven.

Do diocesan and church employees or contract services staff have to be checked if their responsibilities do not involve regular contact with children?

Although these individuals may not be involved on a regular basis with minors, their presence in the school, Church, or diocese implies trust and recognition, simply by their involvement with the school, parish, or diocese. In view of this implied trust, background checks and Safe Haven training are required for them.
